Our Vision

At Fiera Real Estate (FRE), we recognise the critical role we play in transitioning to a low-carbon, more sustainable and equitable world.

As stewards of our client's capital, it is our responsibility to ensure that we use our innovation, influence and privilege to drive positive environmental and social change in a fair and just way for our people, planet and communities. We believe that these ambitions are essential to preserving the long-term value and resilience of the funds we manage.

Our Approach

To achieve our global vision, our ESG strategy centers on three pillars, each with key focus areas and commitments.

We integrate ESG considerations across our investment management activities and in our corporate practices with the goal of effectively identifying, evaluating and managing material ESG factors and advancing our strategy.

Pillars

Responsible

We strive to operate responsibly and to positively impact our planet, people and communities

Resilient

We maintain a resilient and innovative business and address global challenges like climate change through effective governance, planning and systems

Engaged

We believe a collaborative and inclusive approach is necessary to achieve our ESG goals, as well as those of our stakeholders

Focus Areas and Commitments

Pillars	Focus Area	Commitments
Responsible	Planet	Limit our impact on and enhance our natural environment by optimising energy, water and waste performance, protecting and strengthening biodiversity and integrating ESG across our supply chain
	People	Foster a best-in-class team, create an equitable and inclusive workplace driven by the synthesis of diverse perspectives, cultures, experiences and backgrounds and consider diversity as an integral component of who we are as a business, how we operate and how we value the future
	Communities	Enhance the lives of tenants and local community members through philanthropy and donation programs and assets that promote wellbeing, affordability and inclusion
Resilient	Climate	Support the transition to a low carbon economy by developing and executing a net zero strategy and protect our assets by identifying and managing climate risks and implementing adaptive practices
	Governance	Maintain the long-term resilience of our business by operating with the highest ethical and risk management standard and developing a best-in-class data systems to support accurate performance management and decision-making
Engaged	Collaboration	Engage and collaborate with our stakeholders to build long-term strategic partnerships, draw market insights, advance ESG across our industry and meet mutual environmental and social outcomes
	Transparency	Disclose ESG performance according to stakeholder expectations, participate in reporting initiatives and frameworks and assure data to validate quality

Implementation

To meet our commitments, we embed ESG considerations across our investment management activities and in our corporate practices.

Activities	Practices
Investment	<ul style="list-style-type: none"> > Identify and evaluate ESG risks and opportunities in screening and due diligence tools, physical and transition climate factors > Incorporate material ESG findings into our risk analysis and summarise material findings to our Investment Committee for each investment > Complete detailed net zero carbon analysis and/or audits for those funds with associated targets
Development	<ul style="list-style-type: none"> > Implement FRE's Sustainable Design Brief, which sets minimum requirements and targets across sectors for all FRE Funded development projects > Establish ESG performance criteria and measurement processes for development partners > Engage partners to determine opportunities to improve carbon performance of developments and consider the feasibility of net zero construction for each project
Asset Management	<ul style="list-style-type: none"> > Incorporate ESG considerations into asset budgets and strategic plans > Establish property manager ESG requirements and evaluate performance at least annually > Work collaboratively with property managers to deploy ESG best practices > Implement efficiency upgrades to improve asset environmental performance and contribute to the transition to a low carbon economy > Measure and benchmark asset-level ESG performance at least annually > Monitor and communicate property managers ESG performance and improvement opportunities > Set ESG targets and track key performance indicators in fund and corporate scorecards and disclose in investor reporting > Develop internal ESG data management system to facilitate analysis and inform decision-making > Engage and collaborate with tenants to drive change and meet key targets
Corporate Practices	<ul style="list-style-type: none"> > Have employees to set ESG-related objectives and incorporate ESG criteria into performance reviews > Embed diversity, equity and inclusion criteria across our organisation and business functions > Educate employees on ESG best practices > Measure, manage and reduce our own corporate carbon footprint
Transparency and Stewardship	<ul style="list-style-type: none"> > Share ESG vision, pillars, focus areas and commitments > Report multi-year ESG performance to investors annually > Establish and apply supplier selection ESG criteria > Participate in industry and investor initiatives such as GRESB and PRI > Participate in groups and conferences to collaborate with peers and advance ESG across industry

Governance

FRE's ESG governance helps us meet our commitments. We embed ESG management and oversight across the organisation at all levels of decision-making.

UN Sustainable Development Goals

Our ESG strategy focuses on purposefully creating impact for our stakeholders and operating resiliently and responsibly.

To that end we seek to align our objectives with the The United Nations Sustainable Development Goals (SDGs). The SDGs are 17 goals for society and business to address global challenges including, poverty, inequality and climate change. We identified five goals that we could advance through our operations and ESG strategy.

Net Zero Asset Managers

In 2021, Fiera Capital joined the Net Zero Asset Managers (NZAM) initiative. NZAM is an international group of asset managers committed to supporting the goal of net zero carbon by 2050 and limit the effects of average global temperature warming attributed to climate change to 1.5 degrees Celsius.

As a subsidiary, we are supporting Fiera Capital to meet the requirements of this commitment.

Responsibilities

It is the responsibility of all employees of Fiera Real Estate to adhere to this policy. We will share the policy with all investors, employees, property managers and partners to support implementation and stewardship.

The Global Head of Real Estate and Global Head of ESG monitors and reports to the Board on compliance with the policy and sustainability integration progress.

Reviews and Revisions

The Global Head of Real Estate reviews this policy annually and revises as necessary.
